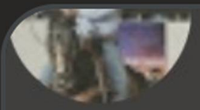
Wow me to



I came home at 3am from a rodeo unloaded my horses went to bed when I got up to feed the next morning I found 2 roping steers with their organs cut out and a mare removed from her stall in my arena I must have scared whatever did this away b4 they got the mare. the steers were 500lbs and wild and you couldn't catch them without a rope. It was late 80's in ft. Worth, Tx.
